

# The first congress of the Iranian Society of Kidney Transplantation:

Was held on **April 23rd until 26th 2024**, with the participation of over **200 urologists and nephrologists**, as well as more than **100 coordinator nurses** active in the field of kidney transplantation. This was **the first time** that **nephrologists and urologists**, all of whom play a vital role in the process of kidney transplantation, gathered under one roof. The congress, held at Farhikhtegan Hospital in collaboration with the Iranian Society of Kidney Transplantation, **will take place annually around this date in Iran from now on.**

In the first congress of the Iranian Society of Kidney Transplantation, **topics such as** the latest **surgical techniques** for transplantation, advancements in **immunosuppressive medications**, management of **post-transplant complications**, and **improving transplant outcomes** in patients with specific conditions were discussed. Additionally, **experiences among physicians and transplant teams** were shared, and issues related to education and raising community awareness regarding kidney transplantation were also among the main focuses of the congress.
