

Wednesday, November 5

08:00-17:00 On-Site Registration

08:00-10:10 **Session 1: Organ Donation, Procurement and Utilization I**

Chairpersons: John Fung, Mohammad Ghnaimat, Mehmet Haberal

08:00 – 08:20	L1 Andreas Tzakis (USA/Greece)	The three happiest moments of my surgical career
08:20 – 08:40	L2 Jeremy Chapman (Australia)	Can machine perfusion help fill the gap between supply and demand for organ transplants?
08:40 – 09:00	L3 Peter Friend (UK)	The emerging role of isolated organ perfusion in transplantation
09:00– 09:20	L4 Marwan Masri (Lebanon)	Organ preservation: A new perspective
09:20 – 09:30	O1 Maria Gomez (UAE)	United Arab Emirates quality assurance program for deceased organ donation
09:30– 09:40	O2 Sharan Alexander (UAE)	Cross-border organ donation and transplantation: UAE experience in regional collaboration with Saudi Arabia and Kuwait
09:40– 09:50	O3 Tanvi Agarwal (UAE)	Using Key Performance Indicator (KPI) analysis enhances deceased organ donation: A quality improvement initiative at the national level in the UAE
09:50 – 10:00	O4 Hicham Aboualloul (UAE)	Strategic advancements in organ donation within the UAE: A model of ethical governance, operational efficiency, and multisectoral collaboration

10:00 – 10:10	O5 Yenigül Kim (Türkiye)	Factors affecting decision-making, regrets, and quality of life in living organ donors: A descriptive and relational research
----------------------	---------------------------------	--

10:10-10:25	Coffee Break
--------------------	---------------------

10:25-12:25	Session 2: Organ Donation, Procurement and Utilization II
--------------------	--

***Chairpersons:** S. Adibul H. Rizvi, Bernard Cohen, Nadey Hakim*

10:25 – 10:45	L5 S. Adibul H. Rizvi (Pakistan)	
10:45 – 11:05	L6 S. Ali Malek-Hosseini (Iran)	History of transplantation in Iran
11:05 – 11:25	L7 Marti Manyalich (Spain)	How to develop deceased donation worldwide?
11:25 – 11:45	L8 Axel Rahmel (Germany)	Systematic analysis of in-hospital death in Germany to identify the donor potential
11:45– 11:55	O6 Lijamol Joseph (UAE)	From brain death to consent: Mapping timeframes in a National Organ Donation donor (OTPD) Program – UAE Experience 2024
11:55 – 12:05	O7 Reginaldo Boni (UAE)	A safe and reproducible method for evaluating potential deceased organ donors increases the number of organ transplants
12:05 – 12:15	O8 Qasim Al Jahdhami (Oman)	Oman organ transplantation program: Achievements, challenges and the way forward
12:15 – 12:25	O9 Emine Selda Gündüz (Türkiye)	Relationship between nursing students’ perceptions of death and their awareness of organ donation

Chairpersons: Alireza Bagheri, Riadh Fadhil, Andrea Herrera-Gayol

10:25 – 10:35	O10 Asmaa Al-Abdulghani (UK/Qatar)	Barriers and facilitators toward deceased organ donation among Muslims In Qatar and the United Kingdom
10:35 – 10:45	O11 Fariba Ghorbani (Iran)	Comparative analysis of organ recovery rates in pediatric and adult brain-dead donors over two decades
10:45– 10:55	O12 Nageswar Bandla (UAE)	The effect of time to organ retrieval on the number of organs transplanted per donor (OTPD)
10:55 – 11:05	O13 Ananthanayagi Purushothaman (UAE)	Dream to Reality: Organ donation experience in the United Arab Emirates
11:05 – 11:15	O14 Hicham Aboualloul (UAE)	Advancing organ donation in Dubai (2022–2024): The impact of in-hospital organ donation coordinators and enhanced healthcare worker training on donation outcomes
11:15 – 11:25	O15 Maria Gomez (UAE)	Deceased organ donation and transplantation in the United Arab Emirates: HAYAT Program
11:25 – 11:35	O16 Burcu Pinar Bulut (Türkiye)	Psychological factors affecting living organ donors
11:35 – 11:45	O17 Betül Şahin Kılınç (Türkiye)	The intersection of nursing students’ organ donation decisions with professional identity: A qualitative study

11:45 – 11:55	O18 İlçim Ercan Koyuncu (Türkiye)	Nursing students' perceptions of organ donation: a metaphor analysis
----------------------	--	---

12:25-13:30	Lunch
--------------------	--------------

13:30-15:40	Session 4: Education and Ethics for Organ Transplantation
--------------------	--

Chairpersons: Jeremy Chapman, Marti Manyalich, Peter Friend

13:30– 13:50	L9 Stefan G. Tullius (USA)	60+ years of Transplantation: Publishing scientific advancements in 2025
13:50 – 14:10	L10 Mustafa Al Mousawi (Kuwait)	Building a regional organ transplant registry in the Middle East: Challenges, strategies, and opportunities
14:10– 14:30	L11 Riadh Fadhil (Qatar)	Mitigating organ trafficking risks in legitimate transplant programs: Preventive strategies and recommendations
14:30– 14:50	L12 Andrea Herrera-Gayol (Canada)	International Survey on barriers regarding deceased donation: Results from Program Directors
14:50– 15:00	O19 Seda Şahin (Türkiye)	Predictive modeling of organ transplant necessity using ensemble learning and deep neural networks
15:00– 15:10	O20 Marwa Elgendy (UAE)	How can a strong legal framework ensure the success of organ donation and transplantation in Arab countries? The UAE experience

15:10– 15:20	O21 Maria Gomez (UAE)	Advancing deceased organ donation in the United Arab Emirates: Strengthening national capacity for deceased organ donation through the HAYAT Program
15:20– 15:30	O22 Aylin Günay (Türkiye)	A qualitative content analysis of the film “Seven Pounds” in the context of organ donation and ethical dimensions: A nursing perspective
15:30– 15:40	O23 Tayyibe İn (Türkiye)	Ethical Issues in uterus transplantation
15:40-15:55 Coffee Break		
15:55-17:35 Session 5: Kidney Transplantation: Adult and Pediatric I		
<i>Chairpersons: Faissal A. M. Shaheen, Axel Rahmel, Antoine Barbari</i>		
15:55 – 16:15	L13 Marcelo Cantarovich (Canada)	Referral for kidney transplantation
16:15 – 16:35	L14 Bernard Cohen (The Netherlands)	Widespread adaption on the use of hypothermic machine perfused for improving outcome and utilization rate of ECD kidneys
16:35 – 16:45	O24 Vivek Kute (India)	A step towards bridging the gender gap in deceased donor kidney transplantation
16:45 – 16:55	O25 Morteza Okhovvat (Iran)	AI-Driven optimization of kidney allocation: Enhancing precision in donor-recipient matching
16:55 – 17:05	O26 Pavel Drozdov (Russian Federation)	Machine perfusion using a standard heart-lung machine: A practical alternative to specialized perfusion devices

17:05 – 17:15	O27 Atakan Işık (Turkey)	A custom-built IVIM diffusion MRI tool for renal transplant assessment: A modular GUI for quantitative biomarker extraction
17:15 – 17:25	O28 Taherehsadat Mortazavi (Iran)	Unveiling the impact of anti-HLA-I antibodies: Key to boosting kidney transplant longevity
17:25 – 17:35	O29 Burak Yağdıran (Türkiye)	Prevalence of pulmonary thromboembolism in renal transplant patients with pulmonary hypertension: A retrospective study

17:35-17:50	Coffee Break
--------------------	---------------------

17:50 – 19:00	DICG Session: <i>Hot topics of the Declaration of Istanbul Custodian Group</i> Moderators: Mehmet Haberal - Thomas Müller Presentations: <i>Suspicious cases of organ trade – what can I do?</i> <i>Migrant workers and organ harvesting – fake or reality?</i> <i>Organ shortage – causes and approaches</i>
----------------------	---

19:30-20:00 20:00	Welcome Cocktail & Concert by Academic Baskent Orchestra Dinner <i>Kızılcahamam Patalya Resort Hotel</i>
------------------------------------	--

Thursday, November 6

08:00-17:00 On-Site Registration

07:30-09:00 Panel Discussion – *Ethics in Organ Transplantation in MESOT Countries: What have been Addressed; Current Issues; Future Challenges?*
Moderators: Mehmet Haberal – Alireza Bagheri
Introduction: Alireza Bagheri
Panelists:
Mustafa Al-Mousawi *Kuwait*
Refaat Kamel *Egypt*
Syed Ali Malek-Hosseini *Iran*
Faissal A. M. Shaheen *KSA*
S. Adibul H. Rizvi *Pakistan*

09:00-09:15 Coffee Break

09:15-11:35 Session 6: Kidney Transplantation: Adult and Pediatric II

Chairpersons: Marcelo Cantarovich, Mustafa Al-Mousawi, Stefan G. Tullius

09:15 – 09:35 L15 Mohamed Salah Eldin Zaki (Egypt) Potential novel biomarkers for kidney transplantation

09:35 – 09:55 L16 Aziz El Matri / Mohamed Mongi Bacha (Tunisia) ABO-incompatible kidney transplantation: A reasonable solution for organ shortage in LMICS

09:55– 10:15	L17 Caner Süsal (Türkiye)	Tacrolimus metabolism and kidney transplant outcomes
10:15 – 10:25	O30 Adam Uslu (Türkiye)	Rituximab in antibody-mediated rejection following kidney transplantation: Clinical and pathological outcomes
10:25 – 10:35	O31 B. Handan Özdemir (Türkiye)	Microvascular injury with Macrophage, Neutrophil, and HLA-DR Positive inflammatory infiltrate, either in DSA Positive or Negative ABMR, determines the prognosis in renal allografts
10:35 – 10:45	O32 Behzad Einollahi (Iran)	A novel desensitization protocol based on the platelet infusion for decreasing anti-HLA antibody and increasing the chance of transplantation success
10:45 – 10:55	O33 Shiva Samavat (Iran)	Predicting graft outcomes in chronic active Antibody-Mediated Rejection (CAMR): A retrospective analysis
10:55– 11:05	O34 Md Masud Iqbal (Bangladesh)	Estimating GFR in CKD and post-transplant period: A comparison of creatinine and Cystatin C based prediction equations with 99mTc-DTPA plasma clearance method
11:05 – 11:15	O35 Shahrzad Shahidi (Iran)	Dose conversion ratio from Cyclosporine to Tacrolimus in Iranian kidney transplant patients and comparison of their side effects
11:15 – 11:25	O36 Rauf Shahbazov (USA)	Impact of the conversion to Belatacept on kidney transplant outcome: Lesson learned from experience
11:25 – 11:35	O37 Zakaria Alsayed (Kuwait)	Assessment of cystinosis in pediatric renal transplant recipients: A Case-Control Study from Kuwait
11:45-13:00	Lunch	

Chairpersons: Mohamed Salah Eldin Zaki, Aydın Dalgıç, Aziz El Matri

13:00 – 13:20	L18 Mohammed F. Shaheen (KSA)	Safety, feasibility and hidden benefits of simultaneous laparoscopic bilateral nephrectomy for massive ADPKD kidneys and kidney transplantation: A single center experience
13:20 – 13:40	L19 Antoine Barbari (Lebanon)	Impact of dialytic modality on graft outcome post kidney transplantation
13:40 – 14:00	L20 Bassam Saeed (Syria)	Long-term management of pediatric kidney transplant recipient
14:00 – 14:10	O38 Saman Farshid (Iran)	Comparison of the surgical results and quality of life of patients after surgery in laparoscopic donor nephrectomy versus open surgery
14:10 – 14:20	O39 Burak Yağdırın (Türkiye)	The importance of early intraoperative ultrasonography, the relationship between surgical technique and allograft function in patients with compartment syndrome after renal transplantation surgery
14:20 – 14:30	O40 Seyed Reza Yahyazadeh (Iran)	The prevalence of BK virus in kidney transplant patients and comparing the response to different treatments, the survival of the transplanted kidney and the patients themselves
14:30 – 14:40	O41 Esra Baskın (Türkiye)	Long-term social, academic, and professional outcomes in adults following pediatric kidney transplantation: A single-center study
14:40 – 14:50	O42 Begüm Avcı (Türkiye)	Association of donor-specific antibodies with rejection and graft outcome in pediatric kidney transplant recipients: A single-center retrospective study
14:50 – 15:00	O43 Elmira Tenchurina (Russian Federation)	Outcomes of kidney transplantation from uncontrolled donation after circulatory death: A retrospective study of Botkin Hospital

Chairpersons: Nabil Mohsin, B. Handan Özdemir, Esra Baskın

13:00 – 13:10	O44 Burak Yağdıran (Türkiye)	The impact of pulmonary hypertension on graft renal vascular resistance and rejection outcomes in renal transplant recipients
13:10 – 13:20	O45 Alev Ok Atılğan (Türkiye)	Early ultrastructural findings in renal transplants: Linking microvascular changes and immune markers to predict the type of rejection and long-term graft survival
13:20 – 13:30	O46 Sahand Ameri (Iran)	Evaluation of changes in cardiac echocardiographic indices in kidney transplant patients with arteriovenous fistula in Labafinejad Hospital
13:30 – 13:40	O47 Fariba Samadian (Iran)	Quantitative renal scintigraphy for differentiating ischemic and non-ischemic transplant complications: A biopsy-controlled study
13:40 – 13:50	O48 Adem Şafak (Türkiye)	Are renal cysts a barrier to donation and kidney transplantation?
13:50 – 14:00	O49 Nashwa Othman (Kuwait)	Angiopoietins and angiopoietin-like proteins in post-transplantation Diabetes Mellitus (PTDM): A new biomarker for PTDM progression
14:00– 14:10	O50 Nada Chniti (Tunisia)	Does Vitamin D deficiency predict post-transplant diabetes in kidney recipients? Insights from a 12-year cohort study
14:10 – 14:20	O51 Ahmed Abdulfattah (Kuwait)	A surprising intraoperative score tool to prediction of delay graft function in renal transplantation
14:20 – 14:30	O52 Samad Niknahad (Iran)	Long-term outcome of elderly kidney transplant recipients: A Single-Center Middle Eastern Experience

14:30 – 14:40	O53 Sanaz Dehghani (Iran)	The experience 3,000 kidneys transplants at Sina Hospital, Iran, over 35 years: One center study
14:40 – 14:50	O54 Pulat Sultanov (Uzbekistan)	8 years of experience in kidney transplantation in Uzbekistan
14:50 – 15:00	O55 Mohammed Balaha (Kuwait)	Kidney transplantation in mentally challenged patients: A single center experience from MENA region
15:00 – 15:10	O56 Emad J. Althubaity (KSA)	Minimal incision in kidney transplantation: A safe, effective, and aesthetically superior alternative to conventional techniques – A propensity-matched comparative study
15:10 – 15:20	O57 Morteza Okhovvat (Iran)	Artificial intelligence in renal transplantation: Current innovations and future Horizons

15:00-15:15	Coffee Break
--------------------	---------------------

15:15-17:15	Session 9: Kidney Transplantation: Adult and Pediatric V
--------------------	---

Chairpersons: Bassam Saeed, Mona Alrukhaimi, Carolina Rumbo

15:15 – 15:35	L21 Nasser Simforoosh (Iran)	Kidney transplantation and neurogenic bladder
15:35 – 15:55	L22 Faissal A. M. Shaheen (KSA)	Kidney transplant oncology: Post-transplant malignancy – Risks, patterns and management
15:55 – 16:15	L23 Bassam Saeed (Syria)	Post-transplant lymphoproliferative disease after pediatric kidney transplantation

16:15 – 16:25	O58 Nehed Ghenam (Tunisia)	Monoclonal gammopathies after renal transplantation: The experience of the Nephrology Department of CHU Sahloul
16:25 – 16:35	O59 Sahand Ameri (Iran)	A tale of two strategies: Desensitization and DSA-free transplantation in highly sensitized patients
16:35 – 16:45	O60 Esra Baskin (Türkiye)	Therapeutic plasma exchange in children: Analysis of indications, adverse events, and clinical outcomes
16:45 – 16:55	O61 Meraj Alam Siddiqui (Türkiye)	Preoperative nutritional indices predicting delayed graft function in pediatric kidney transplantation
16:55 – 17:05	O62 Özlem Yüksel Aksoy (Türkiye)	Microbiological evaluation of diarrhea in pediatric kidney transplant recipients
17:05 – 17:15	O63 Parsa Yousefichaijan (Iran)	Induced pluripotent stem cells by post kidney transplantation regimen potential and monotherapy

13:00 – 17:00 The Star Hall Yıldızlı Salon	DTI Workshop: <i>Donation after Circulatory Death (DCD) practices and procedures</i>	
	Co-chairs: Mehmet Haberal – Marti Manyalich	
	Presentations:	
	Martí Manyalich (Spain)	<i>DCD practices in the world</i>
	Marco Sacchi (Italy)	<i>Detection and evaluation of DCD donors</i>
	Brian Alvarez (Spain) / Marco Sacchi (Italy)	<i>Simulation about the uDCD and cDCD process</i>
	Gabriela Chullo (Spain)	<i>NRP normothermic regional perfusion, organ retrieval</i>
	Gabriela Chullo / Brian Alvarez	<i>Transplantation outcomes</i>

17:30 – 18:00 **MESOT General Assembly**

19:30-20:00 **Baskent University Campus Tour**
Buses will depart at 18:30 from the hotel

20:00-21:30 **Congress Dinner**
Baskent University Faculty of Engineering

Friday, November 7

08:00-10:00 On-Site Registration

08:00-09:40 **Session 10: Liver Transplantation: Adult and Pediatric I**

Chairpersons: S. Ali Malek-Hosseini, Akin Tekin, Gabriel E. Gondolesi

08:00 – 08:20	L24 Georgios Tsoulfas (Greece)	Technological challenges and opportunities in liver transplantation: Are we there yet?
08:20 – 08:40	L25 Ahmed Elsabbagh (USA)	Domino liver transplantation: The current state and future opportunities
08:40 – 09:00	L26 Refaat Kamel (Egypt)	Living donor liver transplantation in Egypt: A twenty-four years' experience and the new era of laparoscopic donor surgery
09:00 – 09:10	O64 Mark Noble (UAE)	Pioneering liver transplantation in the Middle East: Early outcomes for the first 26 patients at King's College Hospital Dubai
09:10– 09:20	O65 Suzan Özer (Türkiye)	Chronic Kidney Disease and End Stage Renal Disease after Liver Transplantation: 10 Years Follow-Up
09:20 – 09:30	O66 Cansu Altuntaş (Türkiye)	Survival determinants in pediatric liver transplantation from a single center performing primarily living donor transplants
09:30 – 09:40	O67 Evrim Bolat Hepgün (Türkiye)	The effect of psychosocial status of liver transplant donors on quality of life: A retrospective study

09:40 – 09:55 Coffee Break		
09:55-11:25 Session 11: Liver Transplantation: Adult and Pediatric II		
<i>Chairpersons: Refaat Kamel, Georgios Tsoulfas, Sedat Boyacioğlu</i>		
09:55 – 10:15	L27 Akin Tekin (USA)	Metastatic neuroendocrine tumors; role of liver and multivisceral transplantation
10:15 – 10:35	L28 Gabriel E. Gondolessi (Argentina)	Pediatric liver transplantation for metabolic diseases, single center experience
10:35 – 10:45	O68 Aydan Farzaliyeva (Türkiye)	Prognostic value of liver function based scores in hepatocellular carcinoma patients undergoing liver transplantation: A 20-year experience
10:45 – 10:55	O69 Rashad Ismayilov (Türkiye)	Preoperative prognostic nutritional index predicts distant metastasis-free survival after liver transplantation for hepatocellular carcinoma
10:55– 11:05	O70 Syed Muhammad Talha Bukhari (Pakistan)	Auxiliary partial orthotopic liver transplantation (APOLT) in pediatric patients with Crigler-Najjar syndrome: A single-center experience
11:05 – 11:15	O71 Fatma Burcu Belen Apak (Türkiye)	Successful treatment of biliary rhabdomyosarcoma with neo-adjuvant chemotherapy and liver transplantation
11:15 – 11:25	O72 Ozan Okyay (Türkiye)	Are kidney and liver transplants an obstacle to becoming a mother?
11:45-13:00 Lunch		

13:00-15:10	Session 12: Other Transplants & Xenotransplantation
--------------------	--

Chairpersons: Andreas G. Tzakis, Marwan Masri, Mohamed Hani Hafez

13:00 – 13:20	L29 Nadey Hakim (UK)	Vascularised composite allotransplantations (VCA) joins global transplantation
13:20 – 13:40	L30 Muhammad M. Mohiuddin (USA)	Recent clinical progress in xenotransplantation
13:40 – 14:00	L31 Annika Tibell (Sweden)	Recruiting Patients for xenotransplantation trials experiences from the 1990s and reflections on the present situation
14:00 – 14:20	L32 Carolina Rumbo (Argentina)	Intestinal transplant recipients younger than 2 years of age at a single center, long-term outcomes compared to older pediatric recipients
14:20 – 14:30	O73 Begüm Yavaşcağlu Üney (Türkiye)	Determination of donor specific antibody changes in heart transplant patients
14:30 – 14:40	O74 Nooshin Dalili (Iran)	Exploring early postoperative acute kidney injury following cardiac transplantation: A critical concern for patient recovery
14:40 – 14:50	O75 Abdulmajeed Hammadi (Iraq)	Radiologic evidence of osteoarthritis response to bone marrow aspirate concentrate injection, NCT05193877 (US registered clinical trial)
14:50 – 15:00	O76 Tayyibe İn (Türkiye)	Uterine transplantation for uterine factor infertility and psychosocial problems
15:00 – 15:10	O77 Tayyibe İn (Türkiye)	Hotspots and global trends of uterus transplantation research on women health from 1996 to 2024: A bibliometric analysis

15:10 – 15:25	Coffee Break
----------------------	---------------------

15:25-17:05**Session 13: Post-transplant Complications I***Chairpersons: Annika Tibell, Hassan Argani, Ahmed Elsabbagh*

15:25 – 15:45	L33 John Fung (USA)	Status of transplantation in HIV positive patients
15:45 – 16:05	L34 Nabil Mohsin (Oman)	Analysis of DQ7 subtypes by principal component analysis
16:05 – 16:15	O78 Masoud Khosravi (Iran)	Association between donated kidney volumes and graft function during the first month and year post-transplantation: A retrospective study
16:15 – 16:25	O79 Mahboobeh Freidoon (Iran)	T Follicular Helper Cell frequency and serum IL-21 levels in antibody-mediated rejection of renal allograft
16:25 – 16:35	O80 Gülşah Sasak (Turkey)	Association of 25-hydroxy vitamin D and bone turnover markers levels with bone mineral density measurement in renal transplant patients
16:35 – 16:45	O81 Aylar Nadiri Niri (Iran)	Vitamin D deficiency in Iranian dialysis patients versus healthy living kidney donors: Emphasizing the need for post-donation care
16:45 – 16:55	O82 Mohamed Elshayeb (Egypt/UK)	Successful kidney transplantation alone in a patient with Caroli disease and end-stage renal disease: A case report with a management challenge
16:55 – 17:05	O83 Nuran Sarı (Türkiye)	Aspergillus infections among solid organ transplant recipients in last five years

17:05 – 17:20**Coffee Break**

15:25-17:05 **Session 14: Post-transplant Complications II**
The Maroon Hall **Parallel Session**
Bordo Salon

Chairpersons: Ali Al Obaidli, Hande Arslan, Feza Yarbuğ Karakayalı

15:25 – 15:45	L35 Mona Al Rukhaimi (UAE)	Management of rare disease post-transplant
15:45– 15:55	O84 Pantea Miralaei (Iran)	Risk factors for kidney transplant recipients and BK virus nephropathy
15:55 – 16:05	O85 Nuran Sarı (Türkiye)	Changes in urinary tract infection causative agents and antimicrobial resistance in kidney transplant patients before and after the COVID-19 pandemic
16:05 – 16:15	O86 Mohammed Megahed (Kuwait)	Recurrent urinary tract infections in renal transplant recipients: Risk Factors, Microbial Resistance Patterns, and Clinical Outcomes
16:15 – 16:25	O87 Dorina Esendağlı (Türkiye)	Comparison of CURB-65 and PSI scores for predicting outcomes of pneumonia in kidney transplant recipients
16:25 – 16:35	O88 Utku Dönger (Türkiye)	Comparative analysis of upper respiratory viral infections in kidney transplant recipients and the normal pediatric population
16:35– 16:45	O89 Mehmet Nezir Ramazanoğlu (Türkiye)	Non-skin and non-infection-related malignancies in adult transplant recipients: 25 years of experience at a single center
16:45 – 16:55	O90 Osama Gheith (Kuwait)	Post-transplant anemia in kidney recipients: To normalize or not? A prospective randomized controlled trial
16:55 – 17:05	O91 Mohammed Dahab (Kuwait)	Extracorporeal membrane oxygenation in critically ill Covid-19 patients: Single center experience

17:20-19:00	Session 15: Management in Solid Organ Transplantation	
--------------------	--	--

Chairpersons: Muhammad M. Mohiuddin, Caner Süsal, Nasser Simforoosh

17:20 – 17:40	L36 Hassan Argani (Iran)	Precision medicine in transplantation
17:40 – 18:00	L37 Hassan Argani (Iran)	Using of nanotechnology science in transplantation
18:00 – 18:10	O92 Aslı Özkızılcık Koçyiğit (Türkiye)	Hypoxia-mediated lncRNA H19 upregulation and inflammatory gene modulation in HK2 cells: A model of acute kidney injury
18:10 – 18:20	O93 Behzad Einollahi (Iran)	Platelet based regimen in desensitization of highly sensitized patients: A novel therapy
18:20 – 18:30	O94 Mouna Hamouda (Tunisia)	Indications for Sirolimus conversion in kidney transplant recipients: A monocentric retrospective study
18:30 – 18:40	O95 Nooshin Dalili (Iran)	A randomized clinical trial on the combination use of sirolimus and tacrolimus in renal transplant
18:40 – 18:50	O96 Soumia Missoum (Algeria)	Aftercare of living donor in kidney transplantation
18:50 – 19:00	O97 Klea Gjergji (Albania)	Oral health and quality of life after kidney transplantation: Clinical and epidemiological evidence from Elbasan District, Albania

13:30 – 15:00	DICG Session: <i>Realities of Incentives in Living and Deceased Organ Donation</i>
The Maroon Hall / Bordo Salon	Co-chairs: Mehmet Haberal – Thomas Mueller
	Presentations: <i>Speakers & Countries TBC</i>

19:30	Dinner
	<i>Kızılcahamam Patalya Resort Hotel</i>
